

NEW! Homeland Defender Program

Times have changed for everyone since 9-11. Even more for IFPO photographers who have to pass through almost insurmountable security checkpoints to get those **MUST HAVE** pictures. It is the job of IFPO to equip its members with the door opening tools to get each job done quickly and safely. In this new high security environment, the **Homeland Defender** credentials will do the job for you.

The **Homeland Defender** program provides **tough** credentials for **tough** times. Don't be without them when you approach your next high security check point.

The **Homeland Defender** program will publish information for the benefit of photographers everywhere. *The Do's and Don'ts of Foreign Travel Photography* are already in print. Such subjects would naturally attract other valuable topics.

The **Homeland Defender** program will draw from the vast backgrounds of experience, education and training of current IFPO members to get this important service up and running **NOW**.
